China network south america solar container project

Does China have a space partnership with Latin America?
In the past few decades,China has regularly made space-related collaboration offers to several Latin American countries,including Venezuela,and in April 2024,it held the first China-Latin American and Caribbean States Space Cooperation Forum.

What is China doing in South America in 2024?
In late 2024,China opened a new megaport in Peru,opening doors for more Chinese investment in South America. Meanwhile,China remains concentrated on building and developing "new infrastructure," including artificial intelligence,renewable energy,smart cities,and 5G technology from telecom firms such as Huawei.

Does China have a role in Latin American and Caribbean ports?
China's presencein Latin American and Caribbean (LAC) ports extends far beyond the Panama Canal. Yet,the true scope of China's reach--and the resulting risk to the United States--is poorly understood. In a new database,CSIS identified 37 port projects tied to Chinese companies in LAC.

Does China have a role in the Panama Canal?
Yet, the true scope of China's reach--and the resulting risk to the United States--is poorly understood. In a new database, CSIS identified 37 port projects tied to Chinese companies in LAC. Concern over China's growing role in the region has centered on several ports located along the strategic Panama Canal.

Is China using Panama Canal ports to expand its footprint?
However, there are signs that China may be using the spotlight on the Panama Canal ports to expand its broader footprint in the region. Recent reports indicate that the state-owned China Ocean Shipping Company is seeking to acquire a stake in the 43 ports currently up for sale, including key terminals in Latin America.

Why is China important to South America?
China is South America's top trading partner and a major source of both foreign direct investment and energy and infrastructure lending, including through its massive Belt and Road Initiative. Beijing has invested heavily in Latin America's space sector and has strengthened its military ties with several countries, particularly Venezuela.
