

12v solar container battery 18650

<div class="df_qntext">What is a 18650 battery pack?

A 18650 battery pack is a type of battery pack that uses 18650 cells. These cells are commonly found within old laptop batteries. The battery pack is very safe; the balance connector makes sure that the cells do not get overcharged, and the shrink-wrap makes sure that the battery cells are not short circuited.

<div class="df_qntext">Does a nickel strip fit a 18650 holder?

The nickel strip doesn't line up with the 18650 holder so you'll end up needing to buy some or make your own. I also noticed that the cells for the positive side don't protrude a lot so you would have to push the nickel in a bit to get it to make a connection but with that being said it seems to be a solid little kit for a battery pack.
