

2024 heat pump solar container exhibition

Scope Heat sources: wall mounted boilers, heat pumps, electric heating, solar photovoltaics, biomass energy, etc Heat transfer: radiators, underfloor heating, wall heating, heating cables, heaters, carbon ...

Various industrial heating: heating radiators, plate heat exchangers and heat exchange equipment, underfloor heating pipes and construction/cleaning equipment, water distributors and accessories, ...

The exhibition covers new types of electric heating technologies and equipment, including heating technology and equipment, heat pumps, electric boilers, heating radiators, electric heaters, water ...

Shanghai International Heating Technology Expo will be held from December 3 to 5, 2025, at the Shanghai World Expo Exhibition & Convention Center. The event presents advanced heating ...

Discover SolarEast's exhibition highlights as a leading heat pump manufacturer. From global HVAC expos to regional trade fairs, explore our booth activities, product showcases, and industry interactions.

At the same time, the exhibition area exhibited various products such as Hi-Therma Smart R290 ATW heat pump, Hi-Power household energy storage products, integrated heat pump ...

The exhibits at this exhibition cover solar photovoltaic power generation, solar thermal energy, solar energy and building integration, air heat pumps, water purifiers, electric heating and air purification, ...

Heat pump: air energy heat pumps, water heaters for household use, commercial machines, heat pump heating machines, gas heat pumps, CO2 heat pumps, underfloor heating and air conditioning, triple ...
