

Botswana industrial solar container company official website factory operation

<div class="df_qntext">How will Scatec power plant work in Botswana?

The power plant is Scatec's first in Botswana and will generate predictable revenues from a 25-year power purchase agreement(PPA) with Botswana Power Corporation,the national utility. The remaining 60 MW of the project is currently under construction and is expected to be completed in the beginning of 2026.

<div class="df_qntext">How will a solar power plant benefit Botswana?

The solar power plant will ensure that approximately 48,000 tons of CO 2 emissions will be avoided and power approximately 20,000 households annually. Botswana is rich in natural resources and has vast solar energy potential, receiving over 3,200 hours of sunshine per year.

<div class="df_qntext">Who will finance the first 60 MW project in Botswana?

Financing for the first 60 MW will be provided by the Rand Merchant Bankin Botswana and the World Bank's International Finance Corporation (IFC). Scatec owns 100% of the project and will be the designated engineering,procurement,and construction (EPC) company,as well as asset manager (AM) and operations and maintenance (O&M) service provider.

<div class="df_qntext">Where will Scatec power plants be built?

Construction and operation of the power plants will be managed by Scatec's organisation in South Africa. "As we reach another milestone in our renewable energy journey in Botswana,we are now looking forward to starting construction of the largest solar project in the country.

<div class="df_qntext">Where will a solar power plant be located in Gaborone?

The plant will be located near Mmadinare,close to the former mining town of Selebi-Phikwe,400 kilometres Northeast of capital Gaborone. The solar power plant will ensure that approximately 48,000 tons of CO 2 emissions will be avoided and power approximately 20,000 households annually.
