

Bridgetown electric solar container battery recycling hotline

<div class="df_qntext">How do I request a container for batteries?

You can request a container for batteries, also called a KGA box, on our website. You will receive a competitive price proposal from our team by email for the collection of batteries, without obligation. Wherever your company is located in the Netherlands, we collect batteries at your location.

<div class="df_qntext">Does it recycle lithium batteries?

IT recycling is an ADR certified company and may and can transport lithium batteries for recycling. For storage of lithium batteries, companies must comply with the new very strict PGS37 standard for fire safety. These are rules for compartmentalization, storage and fire monitoring.

<div class="df_qntext">How do I dispose of old batteries?

Throwing old batteries in a battery box is the most efficient way for companies to responsibly dispose of empty, old, defective or unusable batteries. We place a battery box at your location and empty the box periodically or on demand. You can request a container for batteries, also called a KGA box, on our website.

<div class="df_qntext">How do you recycle EOL batteries?

First of all, the EoL Battery must be returned to the OEM that produced and sold the application in which the battery was used. This can also be a party representing the OEM. By example, in the Netherlands, EoL Batteries are now collected by STIBAT (Stichting Batterijen) and ARN (Auto Recycling Nederland).

<div class="df_qntext">Are old batteries hazardous waste?

Old batteries are classified as chemical and hazardous waste due to the presence of heavy metals. It is therefore important to hand in your batteries to a professional waste disposal company. This way it can be processed responsibly and with as little impact on the environment as possible.

<div class="df_qntext">How to collect old batteries?

Collecting old batteries through IT recycling is an efficient procedure. On the pre-arranged date, our staff will come to your place to collect the old batteries. For maximum safety, we transport them in specially sealed containers. This is done with ADR transport - hazardous materials.
