

# Cape verde solar container insulation buffer pad manufacturer

<div class="df\_qntext">Where is Cape Verde located?

The archipelago of Cape Verde is made up of ten islands and nine islets, and is located between latitudes 14° 28' N and 17° 12' N and longitudes 22° 40' W and 25° 22' W. It is located approximately 450 km from the Senegal coast in West Africa. The islands are divided into two groups: Windward and Leeward.

<div class="df\_qntext">How big is Cape Verde?

The archipelago has a total land surface of 4,033 km<sup>2</sup> and an Economic Exclusive Zone (ZEE) that extends for approximately 734,000 km<sup>2</sup>. The surface area, geophysical configuration, and geology vary greatly from one island to the next. Cape Verde, due to its geomorphology, has a dense and complex hydrographical network.

<div class="df\_qntext">Will Aquasun Cabo Verde achieve the gold certification level?

Based on the current compliance and commitments made by the project team, GIB expects the Aquasun Cabo Verde to achieve the Gold Certification level to the SuRe<sup>®</sup> Standard, if it is to seek formal certification at a more advanced stage of project development.
