<div class="df_qntext">How to import solar panels from China?

Embarking on the importation of solar panels from China is a journey that intertwines various intricate steps, encompassing the understanding of local import laws, in-depth market analysis, stringent supplier assessments, and effective handling of logistics and customs. This comprehensive process demands a strategic and meticulous approach.

<div class="df_qntext">What is the International Convention for Safe Containers (CSC)?

The International Convention for Safe Containers sets minimum container building and testing standards. The CSC applies to all new containers transported through the ocean. This standard requires regular container maintenance and incident reporting for required corrections.

<div class="df_qntext">What is container certification?

Container certification is a compulsion for international trade as it ensures that shipping containers meet specific standards and regulations established by international organizations. To get certified for international trade, containers must adhere to international regulations that govern container size, weight, dimensions, volume, and capacity.

<div class="df_qntext">Do you need a container certification?

They also need container certification from DNV (Det Norske Veritas). The DNV 2.7-1 standard is important for matching and security requirements. This certification ensures container safety, quality, watertightness, and lifting points. If you are using certified offshore containers, you are free from any type of security tension.

<div class="df_qntext">Are Lotus containers CSC compliant?

LOTUS Containers offers a wide variety of container solutions and provides CSC plates for your containers if they comply with the standards. Their container types are also ISO-compliant and suitable for onshore and offshore systems, even in harsh weather conditions.

From innovative battery technologies to intelligent energy management systems, these solutions are transforming the way we store and distribute solar-generated electricity. [PDF] Csachina energy ...
