

Greek solar container subsidies

<div class="df_qntext">Does Greece have a battery storage subsidy program?

Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The auction was the third and final edition of a battery storage subsidy program launched in 2023, with the country now turning its focus towards a new 4.7 GW unsubsidized BESS scheme.

<div class="df_qntext">How much does a mw subsidy cost in Greece?

However, in December 2024, Greece downsized the third auction to 200 MW. The first two auctions concerned projects installed anywhere in Greece, while the third auction involved projects developed in former coal mining regions. The average subsidy price in the third auction exercise came at EUR52589.16/MW/year.

<div class="df_qntext">Does Greece still subsidize Bess?

Moving forward, Greece is abandoning subsidizing BESS via auctions. Instead, the country has recently launched a new program for 4.7 GW of unsubsidized BESS which will be offered priority grid connections on a merchant basis without subsidy support.

<div class="df_qntext">How much does a mw subsidy cost in Macedonia?

The average subsidy price in the third auction exercise came at EUR52589.16/MW/year. The lowest successful bid stood at EUR43927/MW/year, concerning a 25 MW/100 MWh project in the Western Macedonia region. The highest awarded subsidy came at EUR58773/MW/year and refers to a 7.9 MW/31.6 MWh project located in the same region.

<div class="df_qntext">Which Greek companies were successful at the tender?

Other Greek firms who were successful at the tender are: PPC Renewables with a 50 MW/200 MWh project; Enerkoplan investment with a 25 MW/100 MWh project; Ardassa Energy with a 18 MW/72 MWh battery; Arcadia Storage, which is owned by Eunice, with a 10 MW/40 MWh battery; and Plain Solar with a 7.9 MW/31.6 MWh facility.

<div class="df_qntext">Which energy company offers the lowest bids for a battery project?

Greek firm Hellenic Renewables, which is a subsidiary of Helleniq Energy, offered the lowest successful bids for two battery projects of 25 MW/100 MWh each.

Greece a gc solar Solar power in Greece has been driven by a combination of government incentives and equipment cost reductions. The installation boom started in the late 2000s with feed-in tariffs has ...

With a budget of EUR153.7 million, the program is open to businesses, regardless of their size and sector of economic activity. It subsidizes the installation of battery storage systems coupled ...
