

# Grenada drought pumped storage latest news

<div class="df\_qntext">Why is there a water shortage in Grenada?

" For the past few months since the heatwave began our dams which are the main source of water have dried up significantly," says Noreen Cox,a long-time volunteer of the Grenada Red Cross who manages a wide range of disaster preparedness and response challenges. " Ultimately,this led to significant drought conditions and a severe water shortage."

<div class="df\_qntext">Does Grenada have a water crisis?

Surrounded by the sea,Grenada relies on rainwater to replenish water supplies. But drought and heatwaves have combined to put serious stress on forests,food production and,mostly,the people. An island nation in the eastern of the Caribbean Sea,Grenada is going through the most severe water crisis in the last 14 years.

<div class="df\_qntext">What is the Grenada Red Cross doing about water shortages?

The Grenada Red Cross is also doing what it can to address the constant stress and anxiety associated with securing daily water needs. The loss of livelihoods due to water shortages exacerbates these stress levels. The National Society is working to creating awareness about mental health issues and offering support for those affected.
