

How healthy is the community solar market?

Despite lengthening project development timelines, pipelines in key community solar state markets remain healthy, supporting the market's health throughout our five-year outlook. Overall, we expect the national market to contract by 6% on average annually through 2030.

Who owns the solar market insight report?

This report ("Report") and all Solar Market Insight ("SMI") reports are jointly owned by Wood Mackenzie and the SEIA (jointly, "Owners") and are protected by United States copyright and trademark laws and international copyright/intellectual property laws under applicable treaties and/or conventions.

How did California's solar market perform in Q1 2024?

Commercial solar grew by 4%, installing 486 MWdc, making it the only solar segment to increase compared to Q1 2024. California's NEM 2.0 installations continued to fuel the commercial segment, with the state adding more than 200 MWdc in Q1. Community solar installations, however, dropped significantly to 244 MWdc after a massive fourth quarter.

How will the community solar market change in 2025?

The community solar market will experience a more significant contraction, with capacity declining by 22% year-over-year in 2025, following a record year in 2024. Lastly, utility-scale installations will drop by 2% in 2025 after two solid years of growth.

How will New York's solar market perform in 2025?

New volumes in New York also declined slightly, even as the state continues to represent 52% of the total market. We expect the national community solar market to contract 22% this year, following a particularly strong 2024 for the segment. However, installed capacity in 2025 will still exceed 2023 volumes, reaching approximately 1.5 GWdc.

How much solar capacity did the residential segment install in Q1 2025?

Utility-scale projects dominated installations in both states. In Q1 2025, the residential segment installed 1,106 MWdc of solar capacity, declining 13% year-over-year and 4% quarter-over-quarter. High interest rates and economic uncertainty continued to suppress demand.

The global photovoltaic module solar container market is experiencing robust growth, driven by the increasing demand for clean and sustainable energy solutions across residential, ...

What certifications should solar containers have? Learn the key standards like IEC, UL, CE, and UN38.3 that

# Home solar container certification demand analysis report

ensure safety, compliance, and international deployment success.

The off-grid solar container power system market is experiencing robust growth, driven by increasing demand for reliable and sustainable energy solutions in remote areas and developing ...

This report provides a comprehensive analysis of the mobile solar container market, covering market size, segmentation, trends, key players, and future growth prospects.

The global Mobile Solar Container Modules market is projected to grow from US\$ 786 million in 2024 to US\$ 1132 million by 2031, at a CAGR of 5.7% (2025-2031), driven by critical product segments and ...

The mobile solar container market is experiencing robust growth, driven by increasing demand for reliable and readily deployable power solutions in diverse sectors. The market's ...

The solar container market value is projected to be USD 0.83 billion by 2030, growing from USD 0.29 billion in 2025, at a Compound Annual Growth Rate (CAGR) of 23.8% during the forecast period.

**Regional Analysis** The Asia Pacific region leads the global solar container market, driven by rapid industrialization, government support for renewable energy, and increasing energy demand in ...

The global photovoltaic module solar container market is experiencing robust growth, driven by increasing demand for renewable energy sources and the need for efficient, portable power ...

The Off-Grid Solar Container Power System Market Size was valued at 1,158.4 USD Million in 2024. The Off-Grid Solar Container Power System Market is expected to grow from 1,281.2 USD Million in 2025 ...

The global Solar Container market is segmented by company, region (country), by Type, and by Application. Players, stakeholders, and other participants in the global Solar Container market will be ...

Solar Container Power Systems Market Size was estimated at 7.53 (USD Billion) in 2023. The Solar Container Power Systems Market Industry is expected to grow from 8.72 (USD ...

Safety certifications like UL 9540A for thermal runaway containment are becoming key differentiators, as insurers demand third-party validation for large-scale deployments. Southern ...

Which companies are currently leading the mobile solar container market, and what differentiates them? The mobile solar container market is dominated by innovative players such as ...

The mobile solar container power system market is experiencing robust growth, driven by increasing demand for reliable off-grid and temporary power solutions across diverse sectors. The ...

# Home solar container certification demand analysis report

Discover comprehensive analysis on the Solar Container Market, expected to grow from USD 1.5 billion in 2024 to USD 5.2 billion by 2033 at a CAGR of 15.5%. Uncover critical growth factors, market ...

The foldable panel solar container market is driven by companies prioritizing portability, energy efficiency, and rapid deployment. **Ecosphere Technologies** stands out for its ruggedized, off-grid ...
