<div class="df_qntext">How does the EPC model work for solar projects?

For companies like JMS Energy, managing and delivering extensive solar projects requires a coordinated and efficient approach. The EPC model provides this by consolidating all necessary services into a cohesive process, allowing large projects to proceed smoothly and reliably.

<div class="df_qntext">Do solar projects need an EPC contract?

In our experience, most utility-scale solar projects use an EPC Contract. An operation and maintenance agreement: This is usually a medium- to long-term Operating and Maintenance Agreement (O&M Agreement) with an Operator. The term of the O&M Agreement will vary from project to project.

<div class="df_qntext">How to ensure the smooth execution of solar EPC projects?

Here are some strategies to ensure the smooth execution of solar projects: Solar EPC projects involve multiple stakeholders, including engineers, contractors, suppliers, and clients. Maintaining open and regular communication is essential for addressing issues promptly and keeping the project on track.

<div class="df_qntext">What makes a successful solar EPC project management approach?

A successful Solar EPC project management approach integrates technical expertise, project planning, and financial management. It requires a thorough understanding of the project's requirements, a proactive approach to risk management, and the ability to coordinate multiple teams and contractors.

<div class="df_qntext">What is solar EPC?

Solar EPC refers to the end-to-end process where one company (like SunEncore) takes responsibility for the Engineering, Procurement, and Construction of a solar power plant. This is the most preferred model in India because it ensures that businesses deal with a single, accountable partner throughout the project. Why is EPC important?

<div class="df_qntext">Will EPC contracts provide for the handover of a solar facility?

EPC Contracts will not provide for the handover of the solar facility to the Project Company, and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed.
