

Independent solar container industry classification standards

<div class="df_qntext">What are solar & storage standards?

These standards assure that solar and storage systems have been ethically, sustainably, and responsibly sourced, manufactured, transported, installed, operated, and recycled. How to Participate The following opportunities for participation are available:

<div class="df_qntext">What is a Sustainable Industry Classification system ®?>

In order to group like companies based on their sustainability-related risks and opportunities, a new industry classification was needed. The Sustainable Industry Classification System ® (SICS®) solves that problem.

<div class="df_qntext">What is Global Industry Classification Standard (GICs®)?>

This Methodology book primarily provides details on the guidelines used by both MSCI and S&P Dow Jones Indices to assign Global Industry Classification Standard (GICS®) to companies that have issued equity securities. Section 1 introduces GICS and its philosophy and objectives. Section 2 details the eligibility for GICS classification.

<div class="df_qntext">What is the Global Industry Classification Standard?>

The Global Industry Classification Standard is designed to be market demand-oriented in its analysis and classification of companies. For example, drawing the line between goods and services is becoming increasingly arbitrary as they are now commonly sold together.

<div class="df_qntext">What are Seia's STC interest group categories?>

SEIA's STC interest group categories are as follows: Producer Interest- Individuals that represent an entity that produces or assembles products or materials in the identified SEIA Standards Development Policy and Procedures. These may include equipment manufacturers and distributors.

<div class="df_qntext">What is Industry Classification?>

It is designed to respond to the global financial community's need for a global, accurate, complete and widely accepted approach to defining industries and classifying securities by industry.
