

Inventronics solar container

<div class="df_qntext">What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

<div class="df_qntext">What is the inventronics catalog?

Our catalog provides a quick look into our extensive product selection. You can browse technical specifications of products currently available from Inventronics. Find product specific design-in notes developed to help you with your LED product design and engineering.

<div class="df_qntext">What are inventronics EUR series?

They provide a high level of flexibility with several models supplying 96W-240W power ranges, programmable output currents from 450-6700mA and multiple dimming options. Inventronics EUR Series offer a unique, circular shape making them easier to install and provide a more sleek, streamlined appearance.

<div class="df_qntext">What is a solarfold photovoltaic container?

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a very short time.

<div class="df_qntext">How does inventronics create value?

We also seek to create value for our customers by working to extend and increase the return on investment for solid-state lighting systems. Inventronics' manufacturing facility covers an area of 75,000m².

<div class="df_qntext">What is inventronics ESV series?

Inventronics ESV Series provides high input voltage, constant-voltage models that are rugged, reliable and a great option for lighting in challenging applications. They offer industry-leading surge protection, long lifetimes and an IP67 rating.

Système de conteneur solaire mobile LZY avec panneaux photovoltaïques pliables de 20 à 200 kWc et stockage de batterie de 100 à 500 kWh, déployable en moins de 3 heures.

Pourquoi choisir les systèmes d'énergie solaire en conteneur de LZY Nos conteneurs solaires garantissent un déploiement rapide, une évolutivité, une personnalisation, des économies de coûts, ...
