<div class="df_qntext">Is cooperation between Chinese and European solar industry a 'win-win' situation?

Cooperation between Chinese and European solar industries is a "win-win" situation,said experts and business representatives from the photovoltaic (PV) industry during the recently concluded Intersolar Europe exhibition,the largest and most influential PV industry event in Europe.

<div class="df_qntext">Can Europe reclaim a foothold in solar technology?

Once a global pioneer in solar technology,Europe now finds itself in a race against time to reclaim a foothold in an industry it helped to create. While China's dominance of solar manufacturing is undisputed,a growing chorus of investors,innovators,and policymakers believes Europe can still rebound--if it acts decisively.

<div class="df_qntext">How often does sinovoltaics publish a region-specific solar supply chain map?

Every four months,Sinovoltaics publishes region-specific solar supply chain maps for North America,Europe,Southeast Asia,and India,documenting the published plans of manufacturers operating in each region. It also publishes an annual transformer manufacturing map for Mainland China.

<div class="df_qntext">Are EU solar companies facing an existential crisis?

EU solar manufacturers have warned for months that they face an existential crisiswith respect to China's near-total dominance over global supply lines,which has caused a supply glut of dirt-cheap solar panels inside the bloc and left them unable to compete.

<div class="df_qntext">Should China cut off Solar Exports to the EU?

But whether that investment actually makes sense is an open question, according to Jenny Chase, a senior solar analyst at BloombergNEF. If China does cut off solar exports to the EU, the bloc can swap in imports from the U.S. and India, she said.

<div class="df_qntext">Who is sinovoltaics?

Since 2009, Sinovoltaics, a Dutch-German Battery Energy Storage (BESS) and solar photovoltaic (PV) technical compliance and quality assurance service firm, has been a pioneer in the BESS and solar photovoltaic industries.
