

Jinchen solar container battery

How Jinchen is pursuing the technology development of solar module manufacturing? Jinchen keeps following up the technology development of solar module manufacturing and broadening its product range. With the technology accumulation of solar module automatic production equipment, Jinchen actively extends to the industry of solar cell manufacturing.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

Who is Jinchen?

With the goal of offering all-round service, Jinchen deeply studies the difference between customers' demands and provides smart manufacturing solutions covering R&D, design, manufacturing and sales of high-end intelligent equipment.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

How many installers does a solarcontainer need?

At least 3-4 installers and 1 crane operator are needed to put the Solarcontainer into operation within one day. How many households can one Solarcontainer supply with electricity?

PRODUCTS CENTER High-efficiency solar module equipment & solution High-efficiency solar cell equipment & solution Calcite Vapor Deposition Equipment High-efficiency hydrogen intelligent ...

In today's dynamic energy landscape, harnessing sustainable power sources has become more critical than ever. Among the innovative solutions paving the way forward, solar energy ...

Maximum stack number is 260 (<300) to ensure better temperature control process Blow compressed air from all sides to improve temperature control uniformity Single cell Bypass (not entering into stack ...

1 PERTOP high-efficiency solar cell tube PECVD solutions 2 Heterojunction (HJT) solar cell PECVD solution 3 Solar cell injection machine 4 PL& PE Machine 5 AOI testing equipment for solar cell
