

# Jinling solar container

<div class="df\_qntext">What is the construction scale of Huzhou 110kW Jinling energy storage project?

The construction scale of the first phase of Huzhou 110kW Jinling Energy Storage Project is 6MW/24MWh. The project uses a total of nine 40-foot containers, of which eight 40-foot containers are energy storage containers. in the solar energy. CDS-solar was found by a group of experienced engineers to chase a dream of green tomorrow.

<div class="df\_qntext">What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

<div class="df\_qntext">How does solarfold work?

With Solarfold, you produce energy where it is needed and where it pays off. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and mobile operation.

<div class="df\_qntext">What is a solarfold photovoltaic container?

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a very short time.

<div class="df\_qntext">What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.

<div class="df\_qntext">How many energy storage containers does CDs-solar use?

The project uses a total of nine 40-foot containers, of which eight 40-foot containers are energy storage containers. in the solar energy. CDS-solar was found by a group of experienced engineers to chase a dream of green tomorrow. CDS-solar is focusing on bring innovative solar ESS products and tracking device to our clients.

## Jinling solar container

The solar container is lifted using the corner corners in the roof frame. With these in the base frame, the module can be fixed and secured during transport using the twist-lock system.
