

New delhi solar container industry policy support

<div class="df_qntext">What is Delhi solar energy policy 2023?

The Delhi Solar Energy Policy 2023 (hereafter,'the policy') was notified in March 2024 with the goal of increasing installed rooftop solar capacity to 750 MW within the state and accessing utility-scale solar capacity of 3,750 MW from outside the state.

<div class="df_qntext">Does Delhi have a solar policy?

Delhi launched its solar policy in 2016, and in 2023, introduced an updated solar roadmap with the goal of achieving 6,000 MW of installed capacity by 2025. Households can claim up to INR1.08 lakh in total subsidies, while commercial and industrial users benefit from up to INR1/kWh in GBIs and 50% savings on power bills.

<div class="df_qntext">What is the capital subsidy for solar projects in Delhi?

State Capital Subsidy: Under the new Delhi Solar Policy, the Capital subsidy for all Solar projects for residential customers shall be given at the rate of Rs. 2,000/- per KW up to a maximum of Rs. 10,000/- per consumer. The subsidy will be passed through their first electricity bill post-commissioning of the RTS system.

<div class="df_qntext">What are the benefits of solar power in Delhi?

Households can claim up to INR1.08 lakh in total subsidies, while commercial and industrial users benefit from up to INR1/kWh in GBIs and 50% savings on power bills. The state has also enabled group net metering and online applications via the Delhi Solar Portal to drive faster adoption.

<div class="df_qntext">What is the Delhi budget 2025-26?

The Delhi Budget 2025-26 prioritises solar power adoption, modernised power infrastructure, and environmental sustainability. Key initiatives include subsidies for rooftop solar and underground power lines, among others, aiming to make Delhi cleaner, greener, and more energy efficient. March 26, 2025. By EI News Network

<div class="df_qntext">What is Delhi logistics policy 2025?
