

New solar container 14th five-year plan

<div class="df_qntext">What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

<div class="df_qntext">What is the 14th five-year plan?

The 14th Five-Year Plan, officially the 14th Five-Year Plan for Economic and Social Development and Long-range Objectives Through the Year 2035 of the People's Republic of China, is a set of Chinese economic development goals designed to strengthen the national economy between 2021 and 2025.

<div class="df_qntext">How big will electrochemical energy storage be by 2027?

Based on CNESA's projections, the global installed capacity of electrochemical energy storage will reach 1138.9GWh by 2027, with a CAGR of 61% between 2021 and 2027, which is twice as high as that of the energy storage industry as a whole (Figure 3).

<div class="df_qntext">Will the energy storage industry thrive in the next stage?

The energy storage industry is going through a critical period of transition from the early commercial stage to development on a large scale. Whether it can thrive in the next stage depends on its economics.

<div class="df_qntext">What is China's 14th five-year plan 2021-2025?

As China's 14th Five-Year Plan (2021-2025) nears its conclusion, the country is taking stock of a time defined by resilience, innovation, and transformation, with ministries outlining progress at a series of press briefings hosted by the State Council Information Office since July.

<div class="df_qntext">How does the 14th five-year plan differ from previous five-year plans?

The 14th Five-Year Plan differs from past plans in that it also includes a short section on "long-range objectives" for 2035. Note that although this document is an "outline," the PRC government has labeled the longest and most authoritative full versions of previous five-year plans it released as "outlines" as well.
