

North Korea energy bureau new solar container project bidding

<div class="df_qntext">Is South Korea a Bess supplier?

South Korea is also a major exporter of batteries and energy storage technologies, with Samsung SDI and LG Energy Solution among significant suppliers of products from cells to complete BESS solutions internationally. According to the newest Basic Plan, the country aims to capture a 30% share of the global BESS market by 2036.

<div class="df_qntext">What is a 'central market' contract for battery storage on Jeju Island?

In 2023, the ministry hosted a tender offering a 15-year 'central market contract' for 60MW of 4-hour duration (260MWh) battery storage on Jeju Island, which was the first time such a contract had been tendered by the government for low-carbon power sources.

<div class="df_qntext">Does North Korea have a power plant problem?

Shin Jung-soo, a researcher at the Korea Energy Economics Institute, told Daily NK that North Korea's efforts to build small and medium-sized power plants since the 1990s "have had minimal impact on power distribution due to poor management and resource allocation issues."

<div class="df_qntext">What is the South Pyongan Energy Initiative?

The initiative extends beyond resource extraction to renewable energy infrastructure. South Pyongan province has designated the construction of small and medium-sized hydroelectric power plants as a key project for the year, aiming to meet electricity demands in energy-deficient districts and regional factories.
