

Ouagadougou electric solar container vehicle

<div class="df_qntext">Is Burkina Faso launching a new electric vehicle market in Africa?

The electric vehicle (EV) market in Africa is becoming increasingly competitive, with various countries making significant strides in adoption. Recently, Burkina Faso's homegrown electric vehicle, ITAOUA, entered the market, further boosting the continent's EV landscape.

<div class="df_qntext">Where are itaoua electric vehicles made?

The ITAOUA electric vehicle is manufactured at a state-of-the-art facility in Ouaga 2000, a prominent district in Burkina Faso. According to Sputnik Afrique, this innovative vehicle offers a 100% electric, solar-powered, and eco-friendly transportation solution, poised to contribute significantly to the continent's growing electric vehicle market.

<div class="df_qntext">How big is the electric vehicle market in Africa?

Africa's electric vehicle (EV) market is gaining momentum, with a projected value of \$15.8 billion in 2024 and \$25.4 billion by 2029, according to Mordor Intelligence. Although China, Europe, and the US dominate the global EV market, accounting for 95% of sales in 2023, several African countries are making notable strides in EV adoption.
