<div class="df_qntext">Where can I get solar training?

Some locations also offer training in other aspects of the solar industry, including sales, warehouse, and design training. GRID has offices throughout California, in Colorado Washington, DC, and Nicaragua. Training options and availability vary by location. Contact your local GRID office to find out what's available in your area.

<div class="df_qntext">Is solar a good job?

The growing solar industry is creating pathways out of poverty for tens of thousands of workers. Solar today employs over 250,000 people - twice as many people as coal. According to a 2017 Department of Energy report, clean energy jobs accounted for nearly five times more jobs than fossil fuels. The barriers to entry are low.

The special container only functions as a transport, packaging and security unit for the largely pre-assembled photovoltaic system. In this way, the shell of the solar panels is completely unfolded.

Note that you can have a maximum of 1000 arguments per container for each job. This page shows you how to configure the command, arguments, and start order for containers in your Cloud ...
