

Solar container crane video

<div class="df_qntext">What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

<div class="df_qntext">How many installers does a solarcontainer need?

At least 3-4 installers and 1 crane operator are needed to put the Solarcontainer into operation within one day. How many households can one Solarcontainer supply with electricity?

<div class="df_qntext">Why should you choose Konecranes?

Excellent technology isn't enough in itself - build quality, delivery excellence, commissioning professionalism and service complete the picture from Konecranes. Konecranes Gottwald Mobile Harbor Cranes are designed to serve container vessels with up to 22 rows in single and twin lift operation.

<div class="df_qntext">What software does Konecranes provide?

Konecranes also supplies management and navigation software to operate the AGVs. Konecranes AGVs and Lift AGVs are now available with lithium-ion battery technology. With this system you rule the containers, they don't rule you.

<div class="df_qntext">How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.
