

Solar container items in the game

<div class="df_qntext">What is a container in Skyrim?

Please remove this template from the page when finished. Containers are interactive objects that can contain items, or be used to store items in Skyrim. There are a variety of different containers in the game, most of which initially hold loot appropriate to the container's style and location.

<div class="df_qntext">What are the different types of loot containers?

There are a variety of different containers in the game, most of which initially hold loot appropriate to the container's style and location. Some containers may contain valuable treasure or gold, while others may only contain food or non-valuable clutter.

<div class="df_qntext">What happens if a container is stolen in Skyrim?

Containers in houses sometimes reverse the stolen flag on items--non-stolen items get marked as stolen, and stolen items become clean. Occasionally, continuing from a saved game inside a home you own loads the cell without furniture, and all your books end up in a pile on the floor. The Official Skyrim Patch, version 1.2, fixes this bug.

<div class="df_qntext">How to connect solar panels with data port?

The more that the solar panel is facing the sun the more power it produces. We can use the data port of the panels to automate the process. Connect all of the data ports of the solar panels together using more cables, taking care to not connect the power side with the data side.

<div class="df_qntext">Do solar panels have a power port?

Note that these solar panels have both a power and a data port. Complete the solar panels with glass, and run cables from the power port of the panels back to your battery to collect the energy they generate.

<div class="df_qntext">What is a solar device?

The Solar Device is a Tier 1 right-handed gear that can be crafted at Jake's Workshop. The Solar Device is a brown gauntlet with several orange highlights. It features a large 8-pointed star shape with a cavity in its center, appearing to resemble the Sun.

The solar container is lifted using the corner corners in the roof frame. With these in the base frame, the module can be fixed and secured during transport using the twist-lock system.

I've noticed that some games are often criticized for a specific problem with crafting - that you're unable to directly use things in your containers when crafting - you have to gather every item you need into ...

I've stumbled on Container in the past, did my due diligence, marked it as must have, and then went along with my life, oblivious of its existence. An OOP game that with sales in the 2nd ...

Solar container items in the game

So it seems that the "Refrigerator" and "Storage Unit" tech tree entries both unlock blueprints for refrigerators, which is a bit odd. My problem with using the refrigerator as general ...
