

Solar container stocks hit daily limit

<div class="df_qntext">What happened to solar stocks on Tuesday?

Solar stocks got hit hard on Tuesday after the Senate proposed to put an end to wind and solar incentives years earlier than scheduled. Shares of Sunrun (RUN), the largest US rooftop panel installer, tumbled 40%. SolarEdge Technologies (SEDG) also dropped 33%, while Enphase Energy (ENPH) tanked 23%.

<div class="df_qntext">Are solar stocks a threat to the industry?

Solar stocks are on track to close out the week with steep losses as Wall Street assesses last-minute changes slipped into the tax-and-spending bill approved by the House this week. Bottom line: The bill is a threat to the industry.

<div class="df_qntext">How will tariffs affect the US solar industry?

Tariffs on southeast Asia countries, as well as further action against Chinese products, could have the most obvious impact on the U.S. solar industry, with Vietnam slapped with a 46% tariff, Thailand suffers a 36% hit, Malaysia gets 24% and Cambodia is hit with a 49% tariff, as well as a further 34% levy on Chinese goods.

<div class="df_qntext">Why is China not exporting solar products to the US?

This is because, due to various trade restrictions, the direct export of PV products from China to the US has been nearly zero over the past few years, and hardly any Chinese solar products are shipped directly to the US.

<div class="df_qntext">Will China build a photovoltaic factory in the US in 2023?

In 2023, many leading Chinese photovoltaic companies, including Longi, Jinko Solar, Trina Solar and JA Solar Technology, all announced plans to build factories in the US. "The US market is attractive, but it also has complex geopolitical implications," a representative from Longi said today.

<div class="df_qntext">Will tariffs push up the price of solar panels in the US?

"But at the same time, since there is a shortage of high-efficiency PV cell production in the US, these tariffs are likely to push up the price of solar panels in the US even more."
