

# Sungrow solar container market share forecast

<div class="df\_qntext">What percentage of Sungrow's revenue is from solar inverters?

Solar inverters accounted for about 37% of Sungrow's revenue and 39% of gross profit in 2024. Sungrow is one of the two largest solar inverter companies in the world, with Huawei being its closest competitor. Each of the two had more than 20% market share globally in 2023.

<div class="df\_qntext">Will Sungrow expand its presence in distributed solar?

The firm has established a stronghold in supplying inverters for utility-scale solar, and is trying to expand its presence in distributed solar. Distributed solar is a more fragmented market than utility-scale solar and we expect Sungrow to face more competition on this front.

<div class="df\_qntext">Will solar inverter shipment growth accelerate Sungrow's growth?

While Sungrow has benefited from the rapid growth in global solar installations in recent years, we expect a deceleration in inverter shipment growth as the pace of new installations moderates. We expect only a 8% compound annual growth rate in solar inverter revenue over the next five years.

<div class="df\_qntext">How much revenue does Sungrow make in 2024?

Energy storage system sales accounted for 32% of revenue in 2024, but we project it to contribute 37% of revenue in 2025, overtaking solar inverters as the largest revenue contributor. Sungrow also runs a large new energy investment and development business, representing 27% of revenue in 2024.

<div class="df\_qntext">Is Sungrow a good solar inverter company?

Sungrow is one of the two largest solar inverter companies in the world, with Huawei being its closest competitor. Each of the two had more than 20% market share globally in 2023. Compared with the smaller players, Sungrow has a much larger presence in utility-scale solar due to its first-mover advantage.

<div class="df\_qntext">Is Sungrow a good supplier of energy storage systems?

While best known for its solar inverters, Sungrow also stands out as a leading supplier of energy storage systems. According to the China Energy Storage Alliance, Sungrow was the largest Chinese supplier of energy storage systems in 2024 on a global shipment basis.

Solar Container Market Size was estimated at 435.35 (USD Billion) in 2023. The Solar Container Market Industry is expected to grow from 556.24 (USD Billion) in 2024 to 3950.49 (USD Billion) by 2032.

Hefei, China, April 25, 2024 -- Sungrow, the global leading PV inverter and energy storage system provider, released its annual report 2023 recently. The company attained unprecedented revenues ...

"Tripling renewables would help set us on a path to net zero, but key markets are not on track," according to the

# Sungrow solar container market share forecast

BloombergNEF Global Renewable Energy Outlook. Sungrow's latest ...

This report offers a comprehensive overview of the solar container power systems market, providing detailed analysis of market size, growth trends, key players, and future prospects.

Solar container market was valued at \$220.0 million in 2024 and is projected to reach \$2,148.3 million by 2035, growing at a CAGR of 23.0% during the forecast period (2025-2035).

Las Vegas, United States - September 9th, 2025 -- Sungrow, the global leading PV inverter and energy storage system provider, is showcasing a suite of cutting-edge innovations at RE+ 2025.

The Solar Container Market size is expected to reach USD 7.9 billion in 2034 growing at a CAGR of 10.9. Focused on Solar Container Market size, segmentation, consumer behavior, ...

Sungrow's 2025 share award plan underscores our cautious view of the firm's outlook. Under the plan, shares will vest annually over 2025-28 if either the revenue or net income targets are ...

Wind and solar coupled with storage: Wind and solar power giants have entered the energy storage market to establish a second growth pillar beyond wind and solar, aiming to enhance ...

The solar containers market has experienced significant growth in recent years, driven by the increasing demand for renewable energy sources and the need for efficient energy storage solutions. Solar ...

The Off-Grid Solar Container Power System Market CAGR (growth rate) is expected to be around 10.6% during the forecast period (2025 - 2035). Source: Primary Research, Secondary Research, WGR ...

Overall, the Solar Container Market appears poised for growth, driven by technological advancements and a collective push towards renewable energy solutions. The Solar Container Market is seeing ...

Sungrow had over 35 GW of PV inverters shipped in 2020, accelerating its global market share to 27%. Apart from the performance in utility-scale projects in global solar hubs, the development of ...
