

The latest news and profit analysis of european home solar container

<div class="df_qntext">Will the EU solar PV market grow in 2025?

The new mid-year solar PV EU market analysis from SolarPower Europe reveals that for 2025, the annual market is expected to contract for the first time since 2015, with a projected -1.4% growth in the most likely scenario. This follows the exceptional annual market expansions in 2022 (+47%) and 2023 (+51%), and flattened growth in 2024 (+3.3%).

<div class="df_qntext">Will EU solar market grow in 2024?

Following several years of over 40% year-on-year growth, a new report from SolarPower Europe warns that 2024 brings only 4% annual growth to the EU solar market. This represents a 92% growth slowdown. The EU installed 66 GW of solar in 2024, inching past 2023's record of 63 GW.

<div class="df_qntext">How big is the Europe solar PV market?

The Europe solar PV market size crossed USD 63.1 billion in 2024 and is set to register at a CAGR of 7.1% from 2025 to 2034, due to the growing focus on green energy and net zero initiatives.

<div class="df_qntext">How resilient is Europe's solar market?

The utility-scale solar market remains relatively resilient, driven by auctions across Europe that incentivise flexible solar projects that are combined with storage or wind. BRUSSELS, Belgium (Thursday 24th July 2025): The EU is set to install less new solar in 2025 than it did last year - the first annual drop in a decade.

<div class="df_qntext">Does the EU solar sector continue to grow?

The EU solar sector continues its upward trajectory, with mid-2025 figures confirming robust growth. SolarPower Europe's latest analysis highlights record installations, policy momentum, and the technology's central role in the continent's clean energy transition. Source: eepowerschool.com

<div class="df_qntext">How big is Germany solar PV market?

Germany Solar PV market reached USD 8 billion, USD 15.1 billion and USD 18.4 billion in 2022, 2023 and 2024 respectively. Germany accounted for 29% share of the market in 2024. Government authorities are implementing new norms and mandates along with continuous improvements in building infrastructures are driving the business potential.

In this context, we conduct a techno-economic and scenario-based analysis of establishing a strategic reserve for solar modules within the European Union (EU), drawing an ...
