

Vanuatu solar container plant

<div class="df_qntext">What is a Vanuatu solar PV system?

This project is aligned to the Government of Vanuatu's National Energy Road Map for increasing the energy access for rural communities in Vanuatu. The installed solar PV system is a stand-alone 230/400 VAC 50Hz solar micro-grid combined with 48V batteries operating 24 hours and 7 days a week.

<div class="df_qntext">Does Vanuatu have a low electricity access rate?

Vanuatu currently has one of the lowest electricity access rates in the world. Under the RESSET project, New Zealand will serve as the lead donor, providing the majority of funding for the installation of solar arrays and battery storage systems on Efate, near Port Vila, and the island of Tanna.

<div class="df_qntext">What is the Vanuatu energy road map?

This project has been implemented by the Ministry of Climate Change, with support from the United Nations Development Programme (UNDP) and funding from the Government of Austria. This project is aligned to the Government of Vanuatu's National Energy Road Map for increasing the energy access for rural communities in Vanuatu.

<div class="df_qntext">Does Vanuatu have a Power Cooperative?

Throughout the first year of operation, the local energy service company will provide free maintenance and train members of the local communities to operate and maintain the power station. "This is the first-ever power cooperative for Vanuatu's last mile communities.

<div class="df_qntext">Does New Zealand support Vanuatu's climate and energy priorities?

The New Zealand Government is increasing its support for Vanuatu's climate and energy priorities through a major investment in the Renewable Energy Solar and Storage on Efate and Tanna (RESSET) project. This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity.

<div class="df_qntext">Does Vanuatu need electricity?

This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity. Vanuatu currently has one of the lowest electricity access rates in the world.

"This is a partnership arrangement between New Zealand and Vanuatu to deliver renewable energy and solar storage on Efate and Tanna, and we are planning to start construction in early next year."
