

# What are the independent solar container companies in haiti

<div class="df\_qntext">Can solar energy be used in Haiti?

Solar energy offers interesting prospects in Haiti, by offering energy self-sufficiency to the most isolated cities, in the absence of a power grid. The country's location in the tropics gives it very strong solar energy potential. It is believed solar energy will play a fundamental role in access to electricity over the next 10 to 15 years.

<div class="df\_qntext">Why is distributed solar PV the only energy source in Haiti?

Since only about 13% of the people even have grid access, distributed solar PV is the only energy source that can supply all the people electricity for now. Haiti has limited energy resources: no petroleum or gas resources, small hydroelectricity potential and rapidly declining supplies of wood fuels.

<div class="df\_qntext">What makes Solengy a reliable solar company?

Of reliable energy storage capacity across all projects to date. Being Haiti's only solar company with 100% in-house design and assembly, Solengy operates in a state-of-the-art 12,000 square-foot facility consistently producing game-changing solar solutions that upgrade the lives of our customers.

<div class="df\_qntext">Where is Haiti located?

Haiti is a country located on the island of Hispaniola in the Greater Antilles archipelago of the Caribbean Sea. Haiti's purchasing power parity GDP fell 8% in 2010 (from US\$12.15 billion to US\$11.18 billion) and the GDP per capita remained unchanged at PPP US\$1,200.

<div class="df\_qntext">Is Haiti a poor country?

Haiti ranked 145 of 182 countries in the 2010 United Nations Human Development Index, with 57.3% of the population being deprived in at least three of the HDI's poverty measures.
