

What are the large-scale solar container projects in Botswana

<div class="df_qntext">Will a 100 MW solar plant be built in Botswana?

State-owned Botswana Power Corp. has signed a power purchase agreement with a consortium of Chinese enterprises and other companies to construct a 100 MW solar plant in southern Botswana. The project is expected to start generation by the end of 2025.

<div class="df_qntext">Where is Scatec ASA building a solar power plant in Botswana?

In March, Scatec ASA began construction of a 100-megawatt solar power plant in Botswana's northeast. The initial 60 megawatts of this project are expected to come online by the end of this year. The Ministry of Minerals and Energy is also working on additional renewable energy projects.

<div class="df_qntext">When will Botswana's second solar power plant be completed?

The project which is Botswana's second utility-scale solar facility is set to be completed in the second quarter of 2026. Botswana has awarded a major contract to build a 100-megawatt solar power plant to a group of Chinese companies led by China Harbour Engineering Co.

<div class="df_qntext">How much does Botswana's solar project cost?

The project is a key development in Botswana's renewable energy sector, marking the country's second utility-scale solar facility. The contract which is valued at \$78.3 million includes partnerships with China Water and Electric Development Co. and local investors.

<div class="df_qntext">How will a solar power plant benefit Botswana?

The solar power plant will ensure that approximately 48,000 tons of CO₂ emissions will be avoided and power approximately 20,000 households annually. Botswana is rich in natural resources and has vast solar energy potential, receiving over 3,200 hours of sunshine per year.

<div class="df_qntext">How will Botswana Power Projects be implemented?

These projects, with a combined capacity of 1.5GW, will be implemented through private sector investment, with the Botswana Power Corporation (BPC) acting as the offtaker under long-term Power Purchase Agreements (PPAs) of up to 25 years.
